BENTLEY ROUNDS OUT CENTENARY CELEBRATIONS WITH DISPLAYS AT ART BASEL MIAMI

- **All-new third-generation Flying Spur makes Art Basel Miami debut**
- **Bentley vision of sustainable luxury mobility embodied in EXP 100 GT**
- **100 Years of Bentley celebrated at one-night-only event at Zaha Hadid designed One Thousand Museum Residences Miami**

(Miami, 9 December, 2019) To culminate the year of epic Centenary celebrations, Bentley Motors hosted more than 250 guests at an exclusive VIP event at the One Thousand Museum Residences on December 7 during Art Basel Miami, where the world's leading international modern and contemporary art galleries gather. Bentley's newest model, the all-new Flying Spur, as well as the EXP 100 GT, the first time in the South East Region, were showcased to clients and guests of the brand.

Both the all-new Flying Spur and EXP 100 GT were revealed at the One Thousand Museum Residences, designed by the late Dame, Zaha Hadid. One of the most luxurious residential towers in Miami, One Thousand Museum Residences is a prestigious residential tower that appears as a continuous piece of contemporary sculpture from the podium to the crown.

The all-new third-generation Flying Spur is a showcase for Bentley's contemporary sculptural design language while bearing unmistakable British Design DNA. Built on an entirely new platform, its athletic stance benefits from the front axle being moved forward to extend the wheelbase. The elegant,

muscular proportions, especially at the rear, are highlighted through the marque's latest generation cut-crystal effect LED matrix headlamps and new wrap-around rear lamps incorporating 'B' motifs.

The visionary EXP 100 GT is designed from the inside out and taking advantage of an all-electric platform, the concept reimagines the Grand Tourer for the world of 2035. This is a world of shared luxury experiences where passengers and drivers enjoy equal status in their enjoyment of their extraordinary journeys. The cars' presence and impressive exterior proportions are reminiscent of many of Bentley's historic Grand Tourers but take these luxury hallmarks into the future. The result is a future vision commensurate with Bentley's status as the world's most sought after luxury brand.

"Art Basel Miami is a platform for the most significant artistic expressions today. Our presence here is testament to the men and women of Bentley who design, engineer, and manufacture Bentley vehicles such as the new Flying Spur and who reach into the future with the concept EXP 100 GT. – Christophe Georges, President, and CEO of Bentley Motors Americas.

Bentley Motors is the most sought after luxury car brand in the world. The company's headquarters in Crewe is home to all of its operations including design, R&D, engineering and production of the company's four model lines, Continental, Flying Spur, Bentayga and Mulsanne. The combination of fine craftsmanship, using skills that have been handed down through generations, alongside engineering expertise and cutting-edge technology is unique to UK luxury car brands such as Bentley. It is also an example of high-value British manufacturing at its best. Bentley employs around 4,000 people at Crewe.
