BENTAYGA: EXPLORING THE LIMITS OF PERFORMANCE

- **Bentayga reaches 301 km/h, making it the fastest SUV in the world**

(Crewe, 04 September 2015) The all-new W12 TSI engine is the most technically advanced 12-cylinder in the world, delivering the best combination of power, torque and efficiency of any car in its class. With a top speed of 301 km/h, the Bentayga will be the fastest, most powerful SUV in the world.

This film provides a glimpse of what is to come: a unique combination of performance and luxury. Performance of this nature is rare in any car. It was unheard of in an SUV – until now.

- ENDS -

Notes to editors

Bentley Motors is the most sought after luxury car brand in the world. The company's headquarters in Crewe is home to all of its operations including design, R&D, engineering and production of the company's three model lines, Continental, Flying Spur and Mulsanne. The combination of fine craftsmanship, using skills that have been handed down through generations, alongside engineering expertise and cutting-edge technology is unique to UK luxury car brands such as Bentley. It is also an example of high-value British manufacturing at its best. Bentley employs around 3,800 people at Crewe.
