MULSANNE – THE ULTIMATE STATEMENT OF CRAFTSMANSHIP AND AUTOMOTIVE LUXURY

- **Elegantly executed styling revisions give Bentley's flagship a fresh modern presence**
- **State-of-the-art chassis technologies deliver a step change in refinement**
- **Innovative and advanced on-board technology**

Handcrafted in England, it takes around 400 hours for a team of highly skilled artisans to build each Mulsanne at Bentley's Crewe headquarters, where each one of Bentley's flagships is built from 'the ground up'.

Advanced chassis technologies inside the new Mulsanne deliver a step change in refinement. Inside the cabin, more efficient air springs and hydraulically-damped sub frame bushes have resulted in a cabin noise reduction of 4 decibels. Meanwhile, innovative noise absorber technology within the tyres reduces peak rolling noise by 50%. Finally, the Mulsanne's powerful V8 engine has been quieted by 25 decibels, utilising a closed loop system using active cancellation of vibration. These changes result in the world's most refined ride.

The new Bentley Mulsanne exterior has been redesigned. A new, imposing front end is dominated by a large stainless steel vertical-vane grille, while a suite of exterior changes give the new Mulsanne a more modern, integrated appearance, whilst giving the car more visual width and presence.

On the inside, occupants will of course find the world's finest handcrafted wood, leather and metal fittings, and the new Mulsanne also boasts

redesigned seats, new door trims and armrests, unique glass switchgear and an industry-leading palette of 24 exquisite hide colours.

The new Mulsanne features a completely new infotainment system, boasting class-leading navigation technology. It also features a selection of on-board infotainment systems that raise the bar for audio and visual entertainment on the move.
