## Press Information

### **FLYING SPUR W12: THE FASTEST LUXURY SEDAN IN THE WORLD**

- **Ultimate expression of the Flying Spur range**
- **Contemporary cabin design with traditional hand-crafted luxury**
- **Uncompromising power combined with luxury**

The Flying Spur W12 is for those looking for uncompromising power combined with equal luxury. At the heart of the car is Bentley's flagship engine, the immensely powerful 6.0 litre twin-turbocharged W12 which sprints from 0-100 mph in just 4.6 seconds (0-60 in 4.3 seconds), and a top speed of 320 km/h (199 mph).

This incredible performance is combined with a variable displacement system which allows the engine to run at part throttle on six of its 12 cylinders – reducing emissions and fuel consumption with no impact on refinement or performance.

The athletic design of the Flying Spur combines traditional Bentley styling cues with a dynamic stance and contemporary details. Designed for comfort and refinement as well as effortless performance, the exquisite cabin features an on-board WiFi hotspot system, making the Flying Spur the ultimate luxury car for work or relaxation on the move.
