BENTLEY WINS TWO 2022 ROBB REPORT BEST OF THE BEST AWARDS

- **Bentley Continental GT Speed awarded Best Grand Tourer**
- **The most powerful Bentley model, GT Speed combines performance with Bentley luxury and comfort**
- **New Bentley Flying Spur Hybrid named Best Interior**
- **Bentley's newest hybrid offering demonstrates traditional Bentley design, luxury, and refinement throughout the interior**

(Crewe, June 30, 2022) Bentley Motors is proud to reveal that the Bentley Continental GT Speed and Bentley Flying Spur Hybrid have won Best of the Best awards from luxury magazine, *Robb Report*.

For 34 years, *Robb Report's* Best of the Best awards have awarded those who have stood apart from their peers for their exceptional craftsmanship, extraordinary attention to detail, and relentless pursuit of perfection in their field. With those attributes in mind, *Robb Report's* Best of the Best awards have honored the Bentley Continental GT Speed Grand Tourer and the Bentley Flying Spur Hybrid as the Best Interior.

The Continental GT Speed is the ultimate performance-based interpretation of Bentley's definitive Grand Tourer and the most dynamic road vehicle in Bentley's 103-year history. With additional performance and agility provided by Electronic All-Wheel Steering, electronic limited-slip differential and an upgraded version of the 6.0-litre W12 TSI engine which produces 650 HP, this Bentley still maintains the luxury, usability and comfort that customers have come to expect from the Bentley lineup - creating an award-winning Grand Tourer.

BENTLEY

Press Information

The interior of the Flying Spur Hybrid showcases Bentley's expertise in creating a modern cabin of unrivalled luxury and innovation. Utilizing the extensive specification offering, customers can choose between a selection of 15 (five standard and ten optional) leather colors and eight different veneers to create an individual specification. Stitching and emblems can also be specified in blind or contrast colors, as well as the option of contrast piping to the seat covers - reminiscent of the original Flying Spur from the 1950s.

Building on the company's heritage, Bentley's craftsmanship also continues to evolve, delivering contemporary features such as 3D leather door panels and lofted diamond quilting to the seats (included in the Mulliner Driving Specification). Certified as the most efficient model in Bentley's history, the Flying Spur Hybrid has a combined range of 500 miles (805 km) with a pure electric range of 26 miles (41 km).

Notes to editors

Bentley Motors is the most sought-after luxury car brand in the world. The company's headquarters in Crewe is home to all of its operations including marketing, design, R&D, engineering and production of the company's five model lines, Continental GT, Continental GTC, Flying Spur, Bentayga and Bentayga EWB. The combination of fine craftsmanship, using skills that have been handed down through generations, alongside engineering expertise and cutting-edge technology is unique to UK luxury car brands such as Bentley. It is also an example of high-value British manufacturing at its best. Bentley employs around 4,000 people at Crewe.
