

Welcome to The Mews

BENTLEY HOME

THE MACALLAN 200th ANNIVERSARY × BENTLEY

LEATHER
To protect the vessel, the sculpture is lined with the finest low carbon leather, expertly crafted, in a chestnut colorway.

GLASS
Presented in a bespoke glass vessel designed to be displayed horizontally, featuring a unique 180-degree twist detail.

WHISKY
The Macallan Horizon is a sophisticated and bold single malt whisky, crafted from six individual casks to capture the essence of a Bentley motorcar through taste, texture and natural color.

COPPER
The Macallan Horizon's precisely engineered frame is delivered from recycled copper, which includes copper from the old stills from The Macallan Distillery.

THE CLOSURE
A design inspired by the aesthetics of the 'Bentley Drive Dynamics Control' rotary knob.

ALUMINUM
The glass vessel is enveloped by an aluminum ribbon, precision engineered to Bentley's exacting standards, in homage to this key material used in the engineering of a Bentley motorcar.

WOOD
The Macallan Horizon features an inlay of oak on the closure—crafted from one of the six casks used in the maturation of this whisky—and the sculpture is finished with Bentley's Crown Cut Walnut veneer, a specification meticulously developed for Bentley vehicles.
