Technical Integration – Bentley Explore Extraordinary

# The Experience

# The Code

Paste the code below into your HTML webpage to integrate the experience.

```
<!--START OF BENTLEY CODE -->

<div id="gigapixel-widget"
      class="gigapixel"
      data-widget-gigapixel="https://gigapixel-media.bentleymotors.com"
      data-autoscroll="true"
      data-margins='[{"breakpoint":"only screen and (max-width: 731px)", "margin":"0"},
{"breakpoint":"only screen and (min-width: 732px)", "margin":"0"}]`></div>
  <script src="https://ajax.googleapis.com/ajax/libs/jquery/1.11.2/jquery.min.js"></script>
  <script src="https://gigapixel-media.bentleymotors.com/gigapixel\_2/js/vendor-shared.js"></script>
  <script src="https://gigapixel-media.bentleymotors.com/gigapixel\_2/js/bundle-gigapixel.js"></script>

<!--END OF BENTLEY CODE -->
```

# Adding jQuery

---

jQuery is a JavaScript framework, it helps create dynamic and powerful web pages and aids smooth user interactions. With jQuery already present on around 65% of the sites on the Web, it's likely that your website is already using jQuery. This Bentley application requires the presence of jQuery to function as expected, therefore if jQuery is not already present you should add the line of code below into the header of your website.

```
<script src="http://ajax.googleapis.com/ajax/libs/jquery/1.11.2/jquery.min.js"></script>
```
