### THE LUXURY OF CHOICE, THE BENTLEY BENTAYGA

- **World's most desirable SUV offered with four or seven seats**
- **Twin individual rear seats with massage function among a range of exclusive features**
- **Seven-seat configuration offers maximum flexibility**
- **Trio of available engines offers choice between CO<sub>2</sub> emissions of 79 g/km (WLTP) or 635PS (626hp) with a maximum speed of 190 mph (306 km/h)**
- **Optional Bentley Rear Entertainment, picnic tables and Mulliner Console Drinks Cooler**
- **Bentayga designed, engineered and handcrafted in Great Britain**

**(Crewe, 20 November, 2019)** The Bentley Bentayga range of exclusive go-anywhere do-everything SUVs is available with four or seven seat configurations which, combined with a trio of available engines, including the first true-luxury plug in hybrid, reinforce its status as the world's most versatile luxury vehicle.

The flexible seating options make the all-terrain Bentayga the most practical luxury car Bentley has ever built. Big enough to carry a family of seven, it also has the ability to swallow up a boot-load of luggage when required, without ever compromising the extraordinary travelling experience for which Bentleys are renowned. While the available four seat configuration means the Bentayga can also double as a luxury limousine.

Such a variety of seat options further extends the Bentayga's ultimate luxury experience, offering different ways to enjoy familiar journeys on the road, and open up new horizons off-road.

*[All vehicles in release: WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 19.2-80.7 (14.7-3.5). Combined CO<sub>2</sub> – 79-335g/km.]*

## Press Information

Both Bentayga V8 and Speed models are available with either four or seven-seat cabin options, while the Hybrid comes with four seats. In this configuration, it provides an enhanced space for relaxation, entertainment or work on-the-move. The twin rear-seat model provides two passengers with most of the same, impressive luxury seating features as those enjoyed in the front, including 12-way electrical adjustment, heating, ventilation and massage functions.

The cabin of Bentley's all-terrain, all-purpose luxury car includes a centre console between the two rear seats that provides additional storage, USB charging sockets and a beautifully trimmed and quilted backboard to separate the cabin from the boot area.

The spacious twin rear configuration also offers a further choice of individual options, such as Bentley Rear Entertainment, Bluetooth headphones, fold-down picnic tables and individual, Mulliner-Console Drinks Cooler.

The practical and luxurious seven-seat format provides maximum versatility for carrying extra passengers. The third row of seats can be folded away electronically at the push of a button, to provide maximum luggage capacity, while the middle row folds manually for ease of access. Bentley Rear Entertainment is also available as an option.

Beautifully handcrafted, the exclusive cabin employs the most exquisite materials, from rare wood veneers and high-gloss carbon fibre to the finest, hand-stitched leather trim. This unparalleled attention to detail is found right across the Bentayga range.

## Press Information

### **Bentley Bentayga – Leading The Way In The Luxury SUV Sector**

---

The pioneering Bentayga Hybrid is the luxury SUV sector's first plug-in hybrid and Bentley's most efficient model ever. It combines a new, highly efficient 3.0-litre turbocharged V6 petrol engine with a state-of-the-art electric motor. Technologically advanced, it is also the company's first step towards electrification.

The Bentayga Speed is the world's fastest production SUV, with a powerful 6.0-litre W12 TSI engine producing 635 PS (626 bhp) and a top speed of 190 mph (306 km/h). Like the Bentayga Hybrid, the Speed is designed, engineered and handcrafted in Great Britain.

Sitting at the core of the Bentayga range, the V8's 4.0-litre, twin-turbocharged petrol engine combines immense power with impressive fuel efficiency. The dynamic unit develops 542 bhp (550 PS) and 568 lb.ft. (770 Nm) of torque, resulting in a top speed of 180 mph (290 km/h) and 0-60 mph in 4.4 seconds (100 km/h in 4.5 seconds).
