(Crewe, 18th December 2019) Bentley's in-house bespoke division, Mulliner, has created a limited edition series of the flagship Bentley Mulsanne Extended Wheelbase, exclusively for China. Created by devoted craftsmen and women and honouring the beauty of bespoke, this limited edition Mulsanne builds on the foremost luxury limousine in the world with unique details that reference its British country of origin.

The limited edition Mulsanne is available in two sumptuous single tone finishes. Onyx uses a hint of dark blue, mixed with darker tones to create the deepest black finish offered by Bentley. The alternative Black Velvet is a richer black-based finish that contains red pigments for a colour inspired by black cherries. Each hand-crafted body, created in Bentley's dedicated Mulsanne Body Shop in Crewe, has the desired paint finish hand-applied before final

[Mulsanne Extended Wheelbase WLTP drive cycle: fuel consumption, mpg (l/100km) – Combined 17.4 (16.2). Combined CO₂ – 365g/km.]

embellishment with a hand-painted gold fine line that accentuates the characteristic power line and distinctive rear haunch.

21" 'Radiance' 14-spoke wheels in a polished finish complement the exterior. At the front, the Mulliner 'Serenity' grille is offered as a striking alternative to the straight vane grille, with a design incorporating an intricate double diamond quilt pattern that has become a signature for Mulliner limited editions.

Inside the car, Bentley's statement of luxury is epitomised through the finest handcrafted veneers, metals, and leathers - all enriched with bespoke Mulliner artistry. An expressive interpretation of a modern day London skyline is embroidered into all four sumptuous seats, and replicated with fine detail in the front passenger veneer fascia. Customers can choose from three different, unique interior colour combinations - Newmarket Tan with Burnt Oak, Fireglow with Imperial Blue, or Shortbread with Redwood - each combination defining the exclusivity of the fifteen restricted Mulsannes being produced.
